

GOVERNOR CUOMO:

STOP THE PILGRIM PIPELINES!

Dirty fracked oil pipelines threaten New York

The Pilgrim Pipelines would carry explosive fracked oil along the New York State Thruway and through six counties, from Albany to New Jersey, and return flammable refined products north. If constructed, the two Pilgrim Pipelines would:

- Threaten the drinking water for millions of people in New York and New Jersey
- Risk the safety of dozens of communities along the pipelines' route
- Promote fracking and climate change chaos

**Governor Cuomo has the authority to deny
Pilgrim's Thruway Right-of-Way permit.**

**Call Governor Cuomo and urge him to
STOP THE PILGRIM PIPELINES:**

866-846-4075

OUR RISK.

THEIR REWARD.
